Technology Solutions for Federal Government

Cloud Computing

As federal agencies are seeking to benefit from Cloud computing, Big Data and Information Security, ASCG stands ready and support your agency to improve decision making processes, better understand and anticipate customer behavior, gain more accurate vendor insight—all by mining information that is readily available. ASCG is uniquely positioned to help federal clients adopt cloud computing technologies and management techniques to improve the efficiency and flexibility of their data centers.

Customer Care

Being a right-sized company, we have the ability to demonstrate flexibility in our operations to suit the dynamic needs of our customers. The company has demonstrated capability in meeting resource and infrastructure requirements for all projects, at the same time remaining small enough for relationship comfort. ASCG utilizes an industry standard ITIL based Service Desk approach in providing Customer Care – integrating all Tiers of support, consolidating operations, and utilizing Knowledge Management.

Capabilities
